### **DIRECTORS' REPORT**

On behalf of the Board of Directors, it is my great pleasure to present the un-audited accounts of the Modaraba for the six months ended Dec 31, 2015.

1st half of current year remain very challenging in terms of maintaining spreads and profit margin. In our business operations profit spread is significantly reduced and continuously shrinking in the wake of accommodative monetary policy adopted by the SBP. Our better priced financing portfolio of past is also gradually reducing and new funds are deploying at low rate which further pressurize our profitability to some extent. Due to low profit margin, our net profit has slightly reduced by 3% as compared to same period of last year. On other side, we have made significant increase in disbursement and resource mobilization. Our financing during the period has been increased by 48% and our deposit (Certificate of Musharkah) rose by 71% over the period of last year. Due to increase in business volume our profitability was reduced by very small amount. Otherwise keeping in view of drastic rate reduction since July 2014, our profitability would have further reduced.

At present, uncertainty and gloomy outlook have been surrounding within the economic and business news globally. According to latest report of World Bank and IMF, it is expected that world economy will face challenges on multiple fronts in 2016 such as monetary tightening of US Federal Reserve, slow down of China's and emerging market economies and low prices of oil and commodities.

Pakistan is also passing through with mix trend of economic indicators. The major macroeconomic indicators continued to exhibit improvements in the first half of the current fiscal year. The inflationary environment stayed benign, LSM gained traction, and fiscal consolidation remained on track. With the pickup in private sector credit, along with improving security situation reflects strengthening of investor and consumer confidence. However, external trade deficit is more than what projected owing to steep decline in exports. Our exports are losing competitiveness in global markets which urgently require concentrated efforts to overcome this issue. The economy seems to be slightly on right track with satisfactory economic indicators and outlook. China-Pakistan Economic Corridor (CPEC) has further boosted the future prospects and its success would certainly enhance much needed impetus to the economy in the long run for consistent and stable growth.

As stated in our last report that due to substantial reduction in financing rate, we are expecting impact on overall profitability of FHM. According to result of first half so far we have managed to retain our profitability and hopeful that by increasing of business volume particularly on financing side, we will be able to maintain our profitability at year end.

The Board would like to express its sincere thanks and gratitude for the continued support and guidance provided by Securities & Exchange Commission of Pakistan and Registrar Modaraba, customers of the Modaraba for their patronage & business and Certificate holders who have remained committed to FHM. The Board also appreciates dedication, high level of professionalism and hard work of employees of FHM for smooth operations and achieving satisfactory results.

For and on behalf of Board of Directors

Muhammad Shoaib Ibrahim Chief Executive Officer

# INDEPENDENT AUDITORS' REPORT TO THE CERTIFICATE HOLDERS ON REVIEW OF CONDENSED INTERIM FINANCIAL INFORMATION

#### Introduction

We have reviewed the accompanying condensed interim balance sheet of First Habib Modaraba as at December 31, 2015, and the related condensed interim profit and loss account, condensed interim statement of comprehensive income, condensed interim cash flow statement and condensed interim statement of changes in equity together with the notes forming part thereof (here-in-after referred to as the 'condensed interim financial information'), for the six months ended December 31, 2015. The Management Company is responsible for the preparation and presentation of this interim financial information in accordance with approved accounting standards as applicable in Pakistan. Our responsibility is to express a conclusion on this interim financial information based on our review.

The figures for the quarters ended December 31, 2015 and December 31, 2014 in the condensed interim profit and loss account and condensed interim statement of comprehensive income have not been reviewed and we do not express a conclusion on them.

### Scope of Review

We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

#### Conclusion

Based on our review, nothing has come to our attention t:at causes us to believe that the accompanying condensed interim financial information as at and for the six months period ended December 31, 2015 is not prepared, in all material respects, in accordance with approved accounting standards as applicable in Pakistan relating to interim financial reporting.
