Chairman's Messsage

Dear Modaraba Certificate Holders,

I am pleased to present report to our valued Certificate Holders on the affairs of Habib Metro Modaraba (HMM) for the year ended 30th June, 2020.

The emergence of COVID-19 has caused major disruptions to economic activity around the world including Pakistan. The year 2020 has been a challenging year for the world. The COVID-19 pandemic which has spread rapidly brought severe shocks to global economy and human health. It created uncertainties on different economic front and is expected to have a lasting effect on the global economy. Presently, the economic growth has slowed down globally and it appears a moderate pace of expansion is unlikely to achieve in the near future. The pandemic has also taken a devastating blow on Pakistan's socioeconomic fabric and public health system. The country's economy demonstrated its worst performance posted negative growth in FY 2019-20.

I am happy to note that HMM's auto finance product "InstaCar", which is based on Residual Value financing has gradually getting popularity and all efforts are being put-up by the team of HMM for the success of this product. In fact, the sudden change in the global economic conditions in general and in our country in particular due to the Corona virus coupled with increase in car prices and huge increase in KIBOR which was more than 13% from July 2019 to March 2020 i.e., till beginning of COVID 19 which has completely discouraged prospective customers to go for auto financing facility, therefore, the desire target of financing and market penetrations were not achieved.

At present our economy is passing through with difficult time. Way forward, I expect that overall business conditions will be remained in pressure during current year due to several economic challenges. Operating in a volatile environment becomes even more challenging given the fact that our customers are the first to be affected in an economic slowdown. In these unusual circumstances, a cautious approach should be adopted while engaging in new booking of financing assets. I am hopeful that our competent team will continue to grow in prudent manner, will set new milestones and deliver even better result in coming years.

In the end, I express appreciation to my Board Members for their continued support, strategic guidance and for their prudent and invaluable contributions in formulating policies and guidelines in all areas of operations. I would like to thank each and every member of the Board for their guidance, valuable input and giving their precious time for Board meetings.

I also wish to commend our Chief Executive Officer, Senior Executives and all other staff members of HMM for their hard work, dedication and focused efforts for satisfactory results of HMM. I place my sincere appreciation to our Certificate Holders, business partners and all other valued stakeholders for their conviction and the confidence place in our organization. I take this opportunity to thank Registrar of Modaraba, Securities & Exchange Commission of Pakistan, State Bank of Pakistan, Pakistan Stock Exchange, and other relevant regulatory bodies for their continued guidance and support extended to us.

Economic Review

The economy of Pakistan had passed through with very difficult time during the period of July-19 to June-20. At the beginning of the fiscal year there were several economic challenges which in fact had started at the start of calendar of 2019. The key issues were high trade and current account deficit, high inflation and rising interest rates, weakening of Pak rupees. The outbreak of COVID-19 which started in later part of 3rd quarter had brought more distress and miseries on economic front. The Pandemic brought all business activities standstill with unparalleled and unforeseen impact in our lives, economies, our societies and livelihoods.

After the outbreak of COVID-19, The Government of Pakistan had also took bold initiative to fight with COVID-19 and announced several fiscal stimulus packages to support the lower income group and manufacturing sector particularly export based entities. The Government had also announced incentive package and concession for the construction industries to generate employment and support housing related industries. State Bank of Pakistan (SBP) also took several measures to support various segment of the economy during crucial time of disease. The swift turnarounds on the path of macroeconomic adjustments have been witnessed through a broad-based adoption of stabilization measures and economic revival strategies and policies along with its timely implementation and required actions. The initiatives and reforms supported well to minimize huge trade and current account deficit, steadying of foreign reserves and successful completion of IMF program.

Business Review of HMM

The pandemic has terribly slowed down overall economic and businesses activities, due to said impact our assets financing particularly booking of financing assets were reduced to Rs. 79.053 million

compared from last year to Rs. 169.338 million. However, despite off several economic and business challenges, our performance remain satisfactory in terms of increase in overall financing assets size and profitability. Our balance sheet size increase to Rs.195.0 million as compared to last year size of Rs.168.0 million. Profit of the year has also been increased from Rs.11.094 million to Rs. 28.013 million which shows a good progress on earning side.

We could not manage to increase financing assets size as target set at the beginning of the year. The main reason of low disbursement was due to significant increase in car prices and huge rise in discount rate which ultimately increase normal lending rates. Due to COVID-19 business conditions were remained very depressed and entities and individuals had faced severe cash flow and liquidity issues. This situation also diluted timely repayment of borrowed facilities by the businesses and we had also experienced issues of repayment of such facilities within our existing financing portfolio. After the issuance of circular of SBP & SECP regarding acceptance of deferment/rescheduling request of customer, we had received several request of rescheduling of long term financing facility in last quarter of year under review. Our credit department had gone through with these request, made necessary assessment of merit of such requests and finalized processes with approval of Credit Committee and board of directors.

Recovery of financing instalments remained most difficult area of our business operation during last quarter of financial year. Due to depressed business conditions and long period of lockdown, the liquidity and cash cycle of our customers were badly affected. Several customers of our financing portfolio were not able to settle their monthly payment of financing instalments on time during the lockdown period. However, our recovery team has made their hard efforts for collection of monthly repayments and successfully managed said recovery segments at reasonable level.

Future Outlook

We expect that financial year 2020-21 will be also a challenging year due to after effects of pandemic on trade and industry and on overall businesses. Furthermore, the drastic cut in policy rate i.e., 6.25% in last 3-4 months will also reduce our earning on financing portfolio. Currently, the economic activities are now gradually picking up and according to market statistics the sale of auto mobile and sale of products of other major sector such as Cement, Steel and other allied products are also increasing. We expect that reduced lending rate will support to stimulate business activity in coming months. The landmark incentive package for construction industry will also support and boosts the allied industries and will generate employments.

In conclusion, we are closely monitoring the situation in present difficult time. Our most important task is to ensure safety of health of our staff members and best possible services to our worthy customers. Keeping in view of present circumstances, we will move forward in prudent manner with cautious approach and gear up all available resources to counter any operational and business contingencies.

جولائی ۲۰۱۹ تا جون ۲۰۲۰ کے دوران پاکتان کی معیشت بہت مشکل وقت سے گزر رہی تھی۔مالی سال کے آغاز میں متعدد معاثی چیلنجز در پیش تھے جو در حقیقت ۲۰۱۹ کے آغاز پر شروع ہوئے سے در کا کاؤنٹ خسارہ ،اونچی افراط زر اور بڑھتی ہوئی سود کی شرح، پاکتانی روپے کی کمزوری تھی۔ 19-COVIDکے پھیلنے کا جو سلسلہ جو تیسر ی سہ ماہی کے آخر میں شروع ہوا تھا اس نے معاشی محاذیر مزید پریشانیاں اور تکالیف لائیں۔اس وبائی مرض نے تمام کاروباری سرگرمیاں ہماری زندگیوں، معیشتوں، معاشروں اور معاشیات میں بے مثال اور غیر متوقع اثرات کے ساتھ روک دیں۔

کے ساتھ لڑنے کے لئے جرائت مندانہ اقدام اٹھایااور کم آمدنی والے گروپ اور مینوفیکچرنگ سیکٹر خصوصا 19-COVIDکے وباء کے بعد، حکومت پاکستان نے بھی 19-COVID بیکٹیج اور بر آمدی بنیادوں پر تعاون کرنے کے لئے مالی امدادی پیکٹیج کا علان کیا تھا۔ حکومت نے تعمیر اتی صنعتوں کوروز گار پیدا کرنے اور رہائش سے متعلقہ صنعتوں کی مدد کے لئے مراعات پیکٹیج اور مراعات کا بھی اعلان کیا۔ اسٹیٹ بینک آف پاکستان (ایس بی پی) نے وبائی اموات کے اہم وقت کے دوران معیشت کے مختلف طبقات کی مدد کے لئے بھی متعدد اقد امات کیے۔ ان اقد امات اور اصلاحات نے بڑے بیانے پر تجارتی اور کرنٹ اکاؤنٹ خسارے کو کم کرنے، غیر ملکی ذخائر کو مشتخلم کرنے اور آئی ایم ایف پروگرام کی کامیابی سے پخیل اور ملک کے کریڈٹ رٹینگ پروفائل میں بہتری کے لئے اچھی طرح سے مدد کی۔

التي ايم ايم كاكاروباري جائزه

وبائی مرض نے مجموعی معاشی اور کاروباری سرگرمیوں کو بہت ست کر دیاہے ،اس وجہ سے کہ ہمارے اثاثوں کی مالی اعانت خاص طور پر فنانسنگ اثاثوں کی بکنگ کو گذشتہ سال کے ۱۲۹ء۳۳۸ ملین روپے کے مقابلے میں کم کرکے ۵۳ و ۱۹۵ء کے ملین روپے کر دیا گیا۔ تاہم ، تمام تر معاشی اور کاروباری دشواریوں کے باوجو د ہماری کار کر دگی منافع اور فنانسنگ اثاثوں کے بڑھنے کے حساب سے اطمینان بخش رہی ہے۔ ہماری بیلنس شیت کا سائز د بچھلے سال کے ۱۷ء ۱۲۵ ملین روپے کے مقابلے میں ۱۲اء ۱۹۵ ملین روپے بڑھ بچھے ہیں۔ اور اس سال کا منافع بچھلے سال کے منافع ۱۹۶۰ء الملین روپے کر مقابلے سا ۱۶۸۰ ملین روپے رہاہے جو کہ کمائی کے حساب سے ایک بہتر پیشر فت ہے۔

سال کے آغاز میں طے شدہ ہدف کے مطابق ہم فنانسنگ اثاثوں کے سائز میں اضافہ نہیں کرسکے۔ رقم کی کم فراہمی کی بنیادی وجہ کاروں کی قیمتوں میں نمایاں اضافہ اور رعایت کی شرح میں زبر دست اضافہ تھا جس سے بالآخر عام قرضوں کی شرح میں اضافہ ہو تا ہے۔ کوویڈ - 19 کی وجہ سے کارو باری حالات بہت مالیوس کن رہے اور اداروں اور افراد کو نقذر قم کی روانی اور کیکویڈیٹ کے مسائل کا سامنا کر ناپڑا۔ اس صور تحال نے کارو باری اداروں کے ذریعہ قرضوں سے لی جانے والی سہولیات کی بروقت ادائیگی کو بھی گھٹا / کم کر دیا اور ہمیں اپنے موجودہ فنانسنگ پورٹ فولیو کے اندر ایس سہولیات کی ادائیگی کے معاملات کا بھی سامنا کرنا پڑا۔ گا کہ کی التوا / بحالی کی درخواست کو قبول کرنے کے سلیلے میں اسٹیٹ بینک اور ایس ای سی پی کے سر کلر کے اجراء کے بعد، ہمیں جائزہ کے تحت سال کی آخری سے ماہی میں طویل مدتی فنانسنگ کی سہولت کو بحال کرنے کی متعد دور خواستیں موصول ہوئیں۔ ہمارا محکمہ کریڈٹ ان درخواستوں کا جائزہ لے رہا ہے، کریڈٹ کمیٹی اور بورڈ آف ڈائر کیٹٹرز کی منظوری سے ایسی درخواستوں کے میرٹ کا ضروری جائزہ لیاجا تا ہے اور ان کو حتی شکل دی جائے ہے۔

مالی سال کی آخری سہ ماہی کے دوران ہمارے کاروباری عمل کا فنانسنگ قسطوں کی بازیافت کاسب سے مشکل علاقہ رہا۔ مایوس کن کاروباری حالات اور طویل عرصہ لاک ڈاؤن کے کی وجہ سے ، ہمارے صار فین کی لیکویڈیٹی اور کیش سائیکل بری طرح متاثر ہوئے تھے۔ ہمارے فنانسنگ پورٹ فولیو کے متعد د صار فین لاک ڈاؤن مدت کے دوران مالی معاوضوں کی قسطوں کی ماہانہ ادائیگی وقت پر طے نہیں کرسکے تھے۔ تاہم ، ہماری ریکوری ٹیم نے ماہانہ ادائیگیوں کے جمع کرنے کے لئے اپنی بھرپور کوششیں کیں اور کامیابی کے ساتھ ان کو منظم کیا۔

مستقبل كاجائزه:

ہم یہ توقع کررہے ہیں کہ مالی سال ۲۰۲۰–۲۱ بھی وبائی مرض کی وجہ سے کھن /مشکل /چیلنجنگ رہے گااور اس کااثر تجارت، صنعت اور مجموعی طور پر تمام کاروبار پررہے گا۔ مزید ہر آل، پالیسی کی شرح میں زبر دست کی یعنی گذشتہ ۳-۴ مہینوں میں ۲۰۱۵ فیصد بھی مالی اعانت والے پورٹ فولیو پر ہماری آ مدنی کو کم کر دے گی۔ فی الحال، اقتصادی سر گرمیاں اب آہتہ آہتہ بڑھر ہیں ہیاں اور مارکیٹ کے اعدادو شارکے مطابق آٹو موبائل کی فروخت اور دو سرے بڑے شعبوں جیسے سینٹ، اسٹیل اور دیگر وابستہ مصنوعات کی فروخت میں بھی اضافیہ ہورہا ہے۔ ہم توقع کرتے ہیں کہ قرضے کی کم شرح آنے والے مہینوں میں کاروباری سر گرمیوں کو تیز کرنے میں مدودے گی۔ تعیم اتی صنعت کے لئے اہم تر نیبی پیکیج سے وابستہ صنعتوں کو مدواور فروغ ملے گا اور روز گارپیر ابوگا۔

آخر میں، ہم موجو دہ مشکل وقت میں صور تحال پر گہری نگاہ رکھے ہوئے ہیں۔ ہمارا سب سے اہم کام ہمارے عملے کے ممبر وں کی صحت کی حفاظت اور ہمارے قابل صار فین کو بہترین ممکنہ خدمات کو یقینی بنانا ہے۔ موجو دہ حالات کو مدِ نظر رکھتے ہوئے، ہم محتاط انداز کے ساتھ ہوشیار انداز میں آگے بڑھیں گے اور کسی بھی آپریشنل اور کاروباری ہنگامی صور تحال کا مقابلہ کرنے کے لئے تمام دستیاب وسائل کو تیار کریں گے۔

Independent Auditor's Review Report to the Certificate Holders of Habib Metro Modaraba on the Statement of Compliance contained in Listed Companies (Code Of Corporate Governance) Regulations, 2019

We have reviewed the enclosed Statement of Compliance with the Listed Companies (Code of Corporate Governance) Regulations, 2019 (the Regulations) prepared by the Board of Directors of Habib Metropolitan Modaraba Management Company (Private) Limited (the Modaraba Management Company) for and on behalf of Habib Metro Modaraba (the Modaraba) for the year ended June 30, 2020 in accordance with the requirements of regulation 36 of the Regulations.

The responsibility for compliance with the Regulations is that of the Board of Directors of the Modaraba Management Company. Our responsibility is to review whether the Statement of Compliance reflects the status of the Modaraba's compliance with the provisions of the Regulations and report if it does not and to highlight any non-compliance with the requirements of the Regulations. A review is limited primarily to inquiries of the Modaraba's personnel and review of various documents prepared by the Modaraba Management Company to comply with the Regulations.

As a part of our audit of the financial statements, we are required to obtain an understanding of the accounting and internal control systems sufficient to plan the audit and develop an effective audit approach. We are not required to consider whether the Board of Directors' statement on internal control covers all risks and controls or to form an opinion on the effectiveness of such internal controls, the Modaraba's corporate governance procedures and risks.

The Regulations require the Modaraba Management Company to place before the Audit Committee, and upon recommendation of the Audit Committee, place before the Board of Directors for their review and approval, its related party transactions. We are only required and have ensured compliance of this requirement to the extent of the approval of the related party transactions by the Board of Directors upon recommendation of the Audit Committee.

Based on our review, nothing has come to our attention which causes us to believe that the Statement of Compliance does not appropriately reflect the Modaraba Management Company's compliance, in all material respects, with the requirements contained in the Regulations as applicable to the Modaraba for the year ended June 30, 2020.

Further, the Modaraba reviews the value of the assets for possible impairment on an annual basis and any change in the estimates in the future might affect the carrying amount of respective item of property and equipment, with a corresponding effect on the depreciation charge and impairment.

Provisions against non performing financing (Suspense income)

3.4 Standards or interpretations not yet effective

The following new standards have been issued by the International Accounting Standards Board (IASB), which have been adopted locally by the Securities and Exchange Commission of Pakistan (SECP):

IFRS 1 First Time Adoption of International Financial Reporting Standards

IFRS 17 Insurance Contracts

The Modaraba expects that the adoption of the other amendments and interpretations of the standards will not have any material impact and therefore will not affect the Modaraba's financial statements in the period of initial application.

3.5 IFRS 16: Leases

IFRS 16 'Leases' was issued on January 01, 2016. This standard is adopted locally by the Securities and Exchange Commission of Pakistan and is effective for accounting periods beginning on or after January 1, 2019. IFRS 16 replaced IAS 17 'Leases', IFRIC 4 'Determining whether an Arrangement contains a Lease'. The Modaraba applied IFRS 16 with a date of initial application of January 01, 2019.

IFRS 16 provides a single lessee accounting model, requiring the recognition of assets and liabilities for all leases, together with options to exclude leases where the lease term is 12 months or less, or where the underlying asset is of low value. IFRS 16 substantially carries forward the lessor accounting in IAS 17, with the distinction between operating leases and finance leases being retained. However, this standard does not have any impact on these financial statements.

4 SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the presentation of these financial statements are set out below.

4.1 Revenue recognition

Revenue is recognised to the extent that the economic benefits will flow to the Modaraba and revenue can be reliably measured. Revenue is recognised at fair value of consideration received or receivable. Revenue from different sources is recognised on the following basis:

Income on diminishing musharaka financing is recognized on accrual basis.

Income on balances in Modaraba's deposit account and Islamic term deposit receipts is recognized on accrual basis.

Profit on investments is recognized on accrual basis.

4.2 Property and equipment

These are stated at cost less accumulated depreciation less impairment loss (if any). Depreciation is charged to profit and loss account applying the straight line method whereby the cost of an asset is written off over its estimated useful life. In respect of additions and disposals during the period, depreciation is charged on monthly basis on those assets which are purchased and disposed on or before 15th day of any month.

Maintenance and normal repairs are charged to profit and loss account as and when incurred. Major renewals and improvements are capitalized if the recognition criteria are met.

The carrying values are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable.

The assets' residual values, useful lives and depreciation methods are reviewed and adjusted if appropriate, at each year end.

Gain or loss on disposal of assets, if any, is recognized as and when incurred.

For the year ended June 30, 2020

The Modaraba assesses at each reporting date whether there is any indication that assets excluding inventory may be impaired. If such indication exists, the carrying amounts of such assets are reviewed to assess whether they are recorded in excess of their recoverable amounts. Where the carrying value exceeds the recoverable amount, assets are written down to the recoverable amount and the difference is charged to the profit and loss account.

4.3 Intangible assets

Intangible assets, which are stated at cost less accumulated amortisation and impairment losses, if any, represent the cost of computer software licenses.

Costs associated with maintaining these assets are charged to the profit and loss account as and when incurred. However, costs that are directly attributable to the identifiable asset and have probable economic benefits exceeding one year, are recognised as intangible asset.

All intangible assets are estimated to have definite useful lives and are amortised using the straight line method over a period of three years. Amortisation on addition is charged from the day on which asset is available for use while no amortisation is charged up to the day the asset is disposed-off.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each reporting date. The effect of any adjustment to residual values and useful lives is recognised prospectively as a change in accounting estimate.

4.4 Financial instruments

4.4.1 Financial assets

"Financial assets are recognized at the time when the Modaraba becomes the party to the contractual provisions of the instruments and derecognized when the Modaraba losses control of the contractual rights that comprises the financial assets. Any gain or loss on derecognition of financial assets are recognized in the profit and loss account.

The management of the Modaraba determines the appropriate classification of its investments at the time of purchase and these are initially recognized at fair value, which is the consideration given to acquire the assets

All financial assets of the Modaraba as at the reporting date are carried at amortized cost.

The Modaraba classifies its financial assets in the following categories: at fair value through profit or loss, fair value through other comprehensive income and amortized cost. The classification depends on the purpose for which the financial assets were acquired. Management determines the classification of its financial assets at initial recognition. All the financial assets of the Modaraba as at statement of financial position date are carried at amortized cost.

4.4.2 Amortized cost

A financial asset is measured at amortized cost if both the following conditions are met and is not designated at fair value through profit or loss:

- (i) it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- (ii) its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

4.4.3 Financial liabilities

All financial liabilities are initially measured at cost, which is the fair value of the consideration received. These financial liabilities are recognized at the time when the Modaraba becomes a party to the contractual provisions of the instrument, and derecognized when the obligation specified in the contract is discharged, cancelled or expired. Any gain or loss on derecognition of financial liabilities are recognized in profit and loss account.

Notes to the Financial Statements

For the year ended June 30, 2020

4.4.4 Offsetting of financial assets and financial liabilities

Financial assets and financial liabilities are offset and the net amount is reported in the financial statements only when the Modaraba has a legally enforceable right to set-off the recognized amounts and also intends to settle either on a net basis or realize the asset and settle the liability simultaneously.

4.5 Vehicle available for Diminishing Musharaka Financing

Vehicles purchased but not financed to the prospective customers under diminishing musharaka at the reporting date are recorded as non-current assets available for diminishing musharaka financing. The Modaraba values its vehicles available for available for diminishing musharaka financing at cost less impairment, if any. Cost of vehicles represent the actual purchase price paid by the Modaraba.

4.6 Cash and cash equivalents

Cash and cash equivalents are carried at cost. For the purpose of the cash flow statement, cash and cash equivalents consist of cash in hand, balances at banks in current and deposit accounts and stamps in hand. Investment normally qualifies as a cash equivalent only when it has a short maturity of, say, three months or less from the date of acquisition.

4.7 Trade and other payables

Trade and other payables are carried at cost which is the fair value of the consideration to be paid in the future for the goods and services received whether or not billed to the Modaraba.

4.8 Diminishing musharaka financing

Diminishing musharaka financing are stated net of provision and suspense income. Provision is recognized for Diminishing musharaka financing installments receivable, in accordance with the Prudential Regulations for Modarabas.

4.9 Impairment

4.9.1 Financial assets

Impairment is recognized by the Modaraba on the basis of provision requirements given under Prudential Regulations for Modaraba issued by Securities and Exchange Commission of Pakistan and subjective evaluation carried out on an ongoing basis.

4.9.2 Non-financial assets

The Modaraba assesses at each balance sheet date whether there is any indication that assets may be impaired. If such indication exists, the carrying amounts of such assets are reviewed to assess whether they are recorded in excess of their recoverable amount. Where carrying values exceed the respective recoverable amount, assets are written down to their recoverable amounts and the resulting impairment loss is recognized in profit and loss account. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. Where impairment loss for asset subsequently reverses, the carrying amount of the asset is increased to the revised recoverable amount but limited to the extent of initial cost of the asset. Reversal of impairment loss is recognized as income in profit and loss account.

4.10 Taxation

4.10.1 Current tax

The charge for current taxation is based on taxable income at the current rates of taxation after taking into account tax credit and tax rebates realisable, if any. Under clause 100 of Part I of the Second Schedule to the Income Tax Ordinance, 2001, the non-trading income of modarabas is exempt from income tax, provided not less than ninety percent of its profits, after appropriation to statutory reserves as required under Modaraba Regulations, are distributed to the certificate holders.

For the year ended June 30, 2020

4.11 Deferred tax

The Modaraba accounts for deferred taxation on all material temporary differences using the balance sheet liability method arising between the amounts attributed to assets and liabilities for financial reporting purposes and financial statements used for taxation purposes. However, deferred tax liability has not been provided in these financial statements as the management believes that the future income of Modaraba will not be taxable in the foreseeable future, due to the fact that the Modaraba intends to continue availing the tax exemption through profit distribution to the extent of ninety percent of distributable profit.

4.12 Provisions

Provisions are recognized when the Modaraba has a present legal or constructive obligation as a result of past events and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the obligation can be made.

4.13 Foreign currencies translation

Monetary assets and liabilities in foreign currencies are translated into Pak Rupees at the rates of exchange approximating to those prevalent on the balance sheet date. Foreign currency transactions are converted into Pak Rupees at the rate of exchange prevailing on the date of transactions. Exchange gains and losses on translation are recognized in profit and loss account.

4.14 Profit distribution and other appropriations of profit

Profit distributions to the certificate holders and other appropriations of profit are recognized in the year in which these are approved. Transfer to statutory reserve and any of the mandatory appropriations as may be required by law are recognized in the period to which these relate.

4.15 Earnings per certificate

The Modaraba presents earnings per certificate (EPC) data for its certificates. Basic EPC is calculated by dividing the profit or loss attributable to certificate holders of the Modaraba by weighted average number of certificates outstanding during the period. Diluted EPC is determined by adjusting the profit or loss attributable to certificate holders and the weighted average number of certificates outstanding for the effects of all dilutive potential certificates.

4.16 Related party transactions

All transactions with the related parties are priced on arm's length basis.

4.17 Preliminary expenses and floatation costs

Preliminary expenses and floatation costs represent expenses incurred in respect of issue of modaraba certificates to the public inclusive of cost of organization and floatation of the Modaraba, cost of printing, publication and distribution of this prospectus, underwriting expenses, commission to the bankers to the issue and brokerage etc. This cost shall be amortized on prorata basis i.e. for the period of five years till the financial year end i.e. June 30, 2022 which is as per the requirements of Third Schedule of Modaraba Companies and Modaraba Rules, 1981.

17.1 As a consequence of the 18th amendment to the Constitution of Pakistan, in May 2015, the Sindh Workers' Welfare Fund Act, 2014 (SWWF Act) had been passed by the Government of Sindh as a result of which every industrial establishment located in the Province of Sindh, the total income of which in any accounting year is not less than Rs 0.5 million, is required to pay Sindh Workers' Welfare Fund (SWWF) in respect of that year a sum equal to two percent of such income.

The matter was taken up by the Modaraba Association of Pakistan (MAP) with the Sindh Revenue Board (SRB) collectively on behalf of various modaraba management companies (including the Management Company of the Modaraba) whereby it was contested that modarabas should be excluded from the ambit of the SWWF Act as these were not industrial establishments due to their nature of business. The SRB held that modarabas were included in the definition of financial institutions as per the Financial Institution (Recovery of Finances) Ordinance, 2001 and were, hence, required to register and pay SWWF under the SWWF Act.

During the year, the Modaraba received a notice vide letter no. SRB /AC-37/2019-20/80 dated August 19, 2019, wherein, the Sindh Revenue Board (SRB) has advised the Modaraba to pay off all its liabilities falling due under the Sindh Workers' Welfare Fund Act, 2014 (SWWF Act). As per SWWF Act, Workers' Welfare Fund (WWF) levy is required to be paid on total income accruing after December 31, 2013. As the Modaraba has its operations all across Pakistan therefore total income declared in its tax return is a cumulative sum of income for all provinces but the management understands that the SWWF Act is limited only to the province of Sindh and till the time there is any mechanism available for apportionment of total income relevant to the province of Sindh, no WWF liability to SRB can be paid out. On these grounds and foreseeing the expected WWF demand along with penal actions from SRB, the Modaraba filed an appeal with the Honorable Sindh High Court (SHC). However, as per the order of Honourable High Court of Sindh dated March 16, 2020 the Modarba has deposited an amount of Rs. 0.283 million for the period from October 06, 2017 to June 30, 2019 to Sindh Worker Welfare Fund (SWWF) based on the income pertaining to Sindh.

17.2 This relates to withholding tax deposited pertaining to vehicles purchased for diminishing musharaka financing. The amounts are adjustable against diminishing musharaka financing upon receipt of refunds from tax authorities.

FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Modaraba's objective in managing risk is the creation and protection of certificate holders' value. Risk is inherent in the Modaraba's activities, but it is managed through monitoring and controlling activities which are primarily setup to be performed, based on limits established by the Modaraba Management Company, Modaraba's constitutive documents and the regulations and directives of the SECP. The Modaraba's activities expose it to a variety of financial risks: market risk (including profit rate risk, equity price risk and fair value risk), credit risk and liquidity risk. The Board of Directors of the Modaraba Management Company has overall responsibility for the establishment and over sight of the Modaraba's risk management framework.

The Modaraba's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Modaraba's financial performance.

The Modaraba primarily invests in diminishing musharaka, and Islamic Investment Instruments. Such investments are subject to varying degrees of risk, which emanate from various factors that include but are not limited to market risk, credit risk and liquidity risk.

26.1 Market risk

Market risk is the risk that the fair value of future cash flows of financial instruments will fluctuate due to changes in market variables such as profit rates, foreign exchange rates and equity prices.

26.2 Profit rate risk

26.3 Foreign currency risk

Foreign currency risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Modaraba does not have any financial instruments in foreign currencies and hence is not exposed to such risk.

26.4 Liquidity risk

Liquidity risk is defined as the risk that the Modaraba will encounter difficulty in meeting obligations associated with financial liabilities. Liquidity risk arises because of the possibility that the Modaraba could be required to pay its liabilities earlier than expected. The Modaraba's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressful conditions, without incurring unacceptable losses or risking damage to the Modaraba's reputation.

The table below summarizes the maturity profile of the Modaraba's financial liabilities based on contractual undiscounted payments.

Concentration of credit risk exists when changes in economic or industry factors affect the group of counterparties whose aggregate credit exposure is significant in relation to the Modaraba's total credit exposure. The Modaraba's portfolio of financial assets is broadly diversified and transactions are entered into with diverse credit worthy counterparties thereby mitigating any significant concentration of credit risk. The table below analyses the Modaraba's concentration of credit risk by industrial distribution.

27 FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable willing parties in an arm's length transaction. Consequently differences can arise between carrying values and the fair value estimates.

Underlying the definition of fair value is the presumption that the Modaraba is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

Financial assets which are tradable in an open market are revalued at the market prices prevailing on the balance sheet date. The estimated fair value of all other financial assets and liabilities is considered not significantly different from book value as the items are short term in nature.

The carrying values of all financial assets and liabilities reflected in the financial statements are approximate to their fair values. Fair value is determined on the basis of the objective evidence at each required date. The following table compares the carrying amounts and fair values of the Modaraba's financial assets and financial liabilities as at June 30, 2020.

For the year ended June 30, 2020

27.1 Fair value hierarchy

The level in the fair value hierarchy within which the financial asset or financial liability is categorised is determined on the basis of the lowest level input that is significant to the fair value measurement.

Financial assets and financial liabilities are classified in their entirety into only one of the three levels.

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

As at June 30, 2020, none of the financial instruments of the Modaraba are carried at fair value.

27.2 Transfers during the year

During the period, there were no transfers between level 1 and level 2 fair value measurements and into or out of level 3 fair value measurements.

28 CAPITAL RISK MANAGEMENT

The Modaraba's prime objective when managing capital is to safeguard its ability to continue as a going concern in order to provide adequate returns for certificate-holders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Modaraba may adjust the amount of profit distributed to certificate-holders, issue new certificates or sell assets to reduce debt.

The Modaraba's objective in managing risks is the creation and protection of Certificate holders' value. Risk is inherent in the Modaraba's activities, but it is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. The process of risk management is critical to the Modaraba's continuing profitability. The Modaraba is exposed to market risk (which includes profit rate risk and price risk), credit risk and liquidity risk arising from the financial instruments it holds.
